GARFIELD MEMORIAL HOSPITAL.

UNITED STATES CONSULATE.

I AM directed to give public information as to a proposed plan of honoring the memory of the late President Garfield by building a National Hospital in the District of Columbia, to be known for ever as the Garfield Memorial Hospital. The hospital to be open to all needing its aid and ministrations without regard to class, caste, creed or color.

It is thought that the proposed memorial cannot but commend itself to the attention, not only of Americans temporarily abroad, but of all persons of whatever nationality, who abhor assassination, and wish to show their respect for the cause of law and order.

I am directed to make known the fact that I am authorized to receive and forward contributions for the object in question to the Hon'ble James Gilfillan, Treasurer of the United States, who has consented to act as Treasurer of the Fund. General W. T. Sherman is chairman and the Hon'ble William Windom, Vice-Chairman of the Executive Committee composed of eminent men throughout the United States of America. I may add that the smallest contributions will be thankfully received, and donors names, nationality, caste or creed will be made known by me to the Honorary Treasurer.

R. F. FARNHAM, United States Consul.

EXCELSIOR INK FOR RUBBER STAMPS.—Magenta, Scarl

COMMERCIAL INTELLIGENCE

TUESDAY EVENING, JUNE 20.

ALTHOUGH money apparently continues as easy as ever, the London Stock market does not seem strong, Consols coming ⅛ lower at 100⅜, whilst Rupee Paper is ⅛ lower in Fours at 84⅞ and ⅛ down in Fours-and-a-half at 90⅜. French Rentes remain unchanged at 114¾ and Indian Exchange Bank shares are all as last quoted.

In the General Produce markets Rapeseed is still called firm and slightly dearer; other Seeds and Wheat unaltered. Coffee is the same. Ceylon Cocoanut-oil is 5s., Cochin unchanged.

Reuter's quotations for Metals are unaltered, and Piece-goods in Manchester are reported quiet, but steady at previous prices.

The Liverpool Cotton market yesterday closed with a hardening tendency, the day's sales being 14,000 bales, of which 3,000 were Surats. Spot prices show no change except for an advance of 1-16d. in Good Dholleras. To arrive Americans are 1-64d. higher for June-July. In New York ready Mid.-Uplands continue at 12 3-16 cents, and September shipment at 12·01 per lb. The receipts at the U. S. ports to date are as follows:—

	1882.	1881.	1880.
Two days' Receipts	2,000	4,000	4,000
Three days' do.	4,000	7,300	8,300

EXCHANGE.—Silver is still unaltered (according to Reuter at 51 15 16d., but by private messages at 51¾d. per oz.), and here the market is practically unchanged. For demand ready only one bank has to-day been drawing at 1s. 7 29-32d., but for telegraphic ready 1s. 7¾d. has still been available, and forward the same; so that any increased ease in ready bills is counterbalanced by a corresponding firmness forward. Of private paper there is very little offering, and the tendency is quiet. For August-September delivery a little has been done at ready rates. Closing quotations are:—

Bank Bills on demand	...1s. 7⅛ to 29-32d.	per rupee.
Do. Telegraphic	..1s. 7¾d.	,,
Do. 4 months' sight	..1s. 8 1-16d.	,,
Cre.its 3 months' sight	..1s. 8¼d.	,,
Francs 3 ,,	,, ..2·12½	,,

On Calcutta we quote demand at ¼ premium, 60 days' sight at 7-16 discount.

GOVERNMENT PAPER is very dull, and Fours have receded to Rs. 101 15-16; Fours-and-a-half to Rs. 108¾, with few buyers at that.

SHARES are quiet. Banks show no change. Colaba Land Company are Rs. 15 lower. In Press companies Berars, Broach Cotton, Mofussils, and New Indian are all Rs. 2½ lower. For Spinning and Weaving Mill shares inquiry has been less active again, and in most instances our quotations show a reaction of Rs. 5 to Rs. 10 per share. Amongst miscellaneous companies there is no movement.

COTTON is firm, but quiet. Arrivals are rather larger again, 20,000 bales for the four days, but except of Westerns very little decent stuff comes on the market. Export buyers show no great anxiety to operate, notwithstanding the apparently firm advices from home.

WHEAT is firm at previous prices, with a very fair demand, and the same may be said of Linseed and Rapeseed.

FREIGHTS are perhaps a shade steadier. For Liverpool 22s. 6d. to 25s. are still the quotations, but the former is not so easy to get. Other ports may be quoted 27s. 6d. United Kingdom, 30s. Continent. By Cape the inquiry is very slack.

PIECE-GOODS have not changed in position. For English makes the market is pretty steady, but local cloths are being rather pressed for sale again at easier figures.

COALS meet a better inquiry, but there is not much offering except bunder stock, and that is in very small limits.

AN Imperial salute of 31 guns was fired from the Saluting Battery at noon yesterday in honour of the anniversary of the accession to the throne of Her Most Gracious Majesty the Queen, Empress of India.

THIRTEEN mill companies owning mill property in Bombay have lodged appeals to the Acting Chief Presidency Magistrate against the assessment of their premises for the purpose of Municipal taxation.

SURGEON-MAJOR DAVIDSON of the Civil Hospital, Surat, has been transferred to Mahableshwar as Superintendent of that sanatarium. The Suratees regret the change, as Dr. Davidson was very popular with them.

THE camp of the Political Agent of Kathiawar, which is at present at Verawal, will be removed to Joonaghur in a day or two. After a stay of about three days at the latter place the Agent will proceed to Gondal, and thence to Rajkote.

CHOLERA is now rapidly disappearing from Gondal. Major Nutt is taking energetic measures to root out the epidemic. He has directed all the shops for the sale of mangoes be closed. Is this a real preventive? During the cholera outbreak in London in 1849 the use of vegetables was discouraged, and the result was considerable mischief to the public health.

INQUIRIES were recently made at Surat by order of Government to ascertain the number of inhabitants who pay direct taxes and who are therefore qualified to vote for the election of Commissioners for the city. It has been found that there are about one thousand persons who are qualified, but a number of them are illiterate.

IT is reported from Simla that Sir Charles Aitchison has ordered surveys to be made in one or two districts of the Punjab, with a view to the further construction of canals, and that the surveying staff will begin work with as little delay as possible. Drainage works for Amritsar are also engaging the attention of the local Government.

IT is expected that many of the native followers of disbanded regiments who have lost their employment will have work found them in the Commissariat and Ordnance establishments.

REPORTS of the sale of impure milk to the British troops at Morar have reached Army Head-Quarters, and orders have been sent to the local authorities to the effect that all milk for the troops in barracks and hospitals at Morar must be supplied from animals kept in cantonments and open to European supervision.

CAPTAIN W. O. HILL, Paymaster of the 2nd Warwickshire Regiment, died in Calcutta on Thursday last. Captain Hill was Adjutant of the old 58th for 10 years, and a Lieutenant in that regiment for no less than 18 years. The Allahabad paper says:—"He was known as one of the most unfortunate men in the service, nineteen purchases being made over his head, while he was in the place of Senior Lieutenant. In this position he went to England, with his regiment in 1864, and returned in 1874 as Junior Captain, purchase having then been abolished."

THE Scotsman was stated the other day to have disappeared, but a telegram from Rangoon, dated the 17th June, says:—The master in charge of the salvage operations reports that the hull had not disappeared on the 12th of June, when he left the ship. She was in the same position as she had been in for the previous week; and was not likely to disappear for some time. She is advertised for sale by auction on the 23rd of June.

FURTHER evidence has been taken by the Rangoon Magistrate in the Madden case, as directed by the Recorder, and the accused has been committed for trial on a charge of murder.

WHY should not Parsees emigrate to Burmah The *Jam-i-Jamshed* puts this query to the Parsee community, and says that British Burmah is a fertile territory where the population is, scanty. "The authorities are devising a scheme to induce a number of people to migrate to Burmah from India. Why should not the Parsees take advantage of this scheme? He who tills barren soils is, according to the Zoroastrian religion, a good man. Many Parsees are at present without work. Emigration to Australia or America is every now and then talked about, but here we have a country, next door, every way suitable. We have no doubt the Commissioner of British Burmah will be only too glad to have as settlers an enterprising race like the Parsees. The elders of the community should help the poor to carry out this laudable design."

THE pause in the negotiations at Simla between the Burmese representatives and the Government of India is due, the *Pioneer* understands, to a necessity under which the Burmese feel themselves to refer to Mandalay for final orders. "Of course it would be useless to speculate about the result of reference to a monarch who is altogether in the dark as to his true position and therefore as to his real interest. If the Embassy were the only authority dealt with, there can be little doubt that business would finally be done, though even then not without a great deal of discussion and hair-splitting; but as matters actually stand, we must be content to regard the final result as depending on the decision of the King."

SAYS the *Indu Prakash*:—"It is high time, we think, for the Parsee community to inquire into the causes which lead to so many cases of suicide amongst them. Every month we hear of four or five such cases, and the evil seems to be increasing rather than decreasing. It was only a few days ago that a young man killed himself because his father would not consent to his marriage; and only a few days after that young man's brother killed himself for the very same reason. And the remarkable thing is that both the unfortunate boys left notes behind them, requesting their parents not to mourn their loss, but to live and be comfortable! The body of another Parsee was the other day discovered in the Cowasjee Patel tank. These are typical cases and can no longer be passed over as solitary instances by our Parsee brethren. Is it that there is a tendency to hysteria among the younger generation of the community? Dr. Sakharam Arjoon stated in one of his lectures that the custom of intermarrying which seems to prevail largely among the Parsees, was the sole cause of this hysterical development. If so, should not the custom be put a stop to?"

THE Sind *Civil and Military Gazette* writes:—In our last issue our Bombay correspondent took occasion to notice, in the concluding paragraph of his letter, the progress the system of illuminating buildings, &c., by the electric light is now making in Bombay, which, he says, "is surely creeping into the popularity it deserves." Bombay is indebted to a leading citizen—Mr. Grattan Geary, of the *Bombay Gazette*,—for first introducing the light, and our correspondent says truly that "for a long time the *Bombay Gazette* office alone made use of this truly superb light." "The *Urbs prima in Indis*" has recently begun, however, to see the great advantage of having more light generally on the subject and particularly of that kind produced by the "Brush Electric Light and Power Company." Consequently many of the mercantile firms, as well as the Municipality, are adopting it. Already "the premises of Messrs. Treacher and Co., in the Fort, and the vast arches in the Crawford Market are illuminated by it nightly," says our correspondent, "and it is said that its efficacy will be tested next at the Prince's Dock."

A CIRCULAR has lately been issued by the Quartermaster-General's Department, Simla, directing general officers commanding divisions and districts to arrange with the Military Works Department in Bengal and the Public Works Department in the Madras and Bombay Presidencies for the erection on suitable sites of dummy railway wagons at all stations in their respective commands occupied by a regiment of British or native cavalry, or by a battery of horse or field artillery. The wagons are to be of two patterns: one an ordinary-sized wagon; and the other a two-sided truck adapted for artillery purposes only. The dimensions of the vehicles are to be regulated by those of corresponding wagons on the broad-gauge railway lines in the command. These dummy wagons are to be employed for the instruction in railway embarkation of the mounted branches in the service. The present action of the authorities is said to be owing to a recommendation which emanated from H. E. the Commander-in-Chief in April last. The practice for each corps is intended to occupy only a few days yearly, and different regiments or batteries in a large station will be able to use the same gear.

THE notification under the Indian Arms' Act, which appears in the last *Gazette of India*, is said to have been framed specially with a view to fill up a *lacuna* in the rules as they stood, because they made no provision for the import of arms, ammunition, &c., into British India by *land*, i. e., from Native States. All such importation was formerly illegal. No new principle is introduced by the notification, but the plan of licence and report prescribed in the existing rules is closely followed—*mutatis mutandis*.

THE *Egyptian Gazette*, published at Alexandria, states:—The Anglo-French squadron is held in readiness for action. On board the ships shells are suspended by pulleys for the immediate loading of the guns. On the other hand, the Egyptian military authorities are constructing earthworks around the fortification. The electric light used by the fleet during the night is said to have created a scare among the Egyptian soldiers."

SOME London wag has dubbed the wicket-keeper of the Oxford eleven "the Ancient Mariner," because "he stoppeth one of three."

WE see that Mr. James Caird has been made a K.C.B.

A NUMBER of very interesting examples of native art workmanship, which Mr. Purdon Clarke, of the Department of Science and Art, collected during his recent visit to India, will probably next spring supply an important and attractive feature of the exhibitions at South Kensington, and be made generally available for public use by means of the Circulation Department of the museum.

HER MAJESTY'S ship INCONSTANT has had a narrow escape from destruction by fire. The Inconstant was off Simon's Town on the 5th inst., when about a quarter to 10 p.m. flames were discovered in the after part of the vessel. They spread very rapidly. Water was pumped on board, the after compartments were filled, and the magazines flooded. These measures resulted in extinguishing the fire, which is supposed to have originated in one of the store-rooms. The officers were the chief sufferers by the fire, all their property being nearly ruined.

A STAINED glass window, commemorating the Queen's recent escape from assassination, has been placed in the chancel of Holy Trinity Church, Windsor. The window consists of three panels, the subject of the upper one being the Ascension, and that in the middle contains a crowned female figure of queenly aspect, seated on a chair of State, and holding a sceptre in her right hand and a wreath in the left. Behind the throne is St. Michael restraining Death, who carries a flaming torch and a sword, the blade of which is breaking into pieces. The lower panel has a figure of the Saviour with a woman kneeling at His feet. The inscription is as follows:—"To the glory of God and in grateful commemoration of the merciful deliverance of Her Gracious Majesty Queen Victoria on the 2nd of March, 1882." The cost of the memorial has been defrayed by public subscription.

THERE was never any doubt about the loyalty of Mr. Justice Lopes. *Truth* thinks that even if he had awarded twelve months' imprisonment with hard labour, instead of ten years' penal servitude, to that wretched idiot, Albert Young, nobody would have ever thought of questioning his Lordship's devotion to his Queen, "than whom no Sovereign was ever more beloved or respected." Twelve months' imprisonment would have been a fair sentence under all the circumstances of the ridiculous affair. "Perhaps the Home Secretary may be induced to think so, but I fear Sir William Harcourt is in a somewhat difficult position."

FROM the French speculator's point of view, the *Pall Mall Gazette* says, nothing could be more inopportune than the obstinate conduct of Arabi Pasha. In Paris the markets were gradually preparing for another vigorous campaign against the shy, bitten, and by no means cash-oppressed public. The Union Générale difficulty had been put at least temporarily out of the way, and the weakness of sundry financial companies afflicted with too much paper had been to some extent reduced by amalgamations; there was the Spanish debt conversion looming ahead—sure to be a source of profit if well managed, and the regeneration of Turkey by means of tobacco monopolies and railways into Austria; and all these things gave a not unreasonable tone of hope to the gamesters of the market that good times were at hand again. But this Egyptian upstart has hitherto completely baffled all their plans and hopes, and if he is not got rid of very soon the consequences may be very serious.

SAYS *Truth*:—"Lord Granville and M. de Freycinet seem to me to be two feeble and flaccid old women, each afraid to act, and each throwing the blame of not acting on the other. Had the Egyptian difficulty been left to Sir Charles Dilke and to M. Gambetta, it would have ceased to be a difficulty long ago. Far from Prince Bismarck having been in the way of a settlement, he has persistently given excellent advice.

MR. LAURENCE OLIPHANT'S day-dream of re-establishing the Jews in the Land of Gilead, the *Pall Mall Gazette* notes, has been rudely destroyed by the Porte. There are a million Russian Jews anxious to make a new exodus. The Turk bids them welcome to any part of his dominions—excepting the Promised Land. In Palestine no Russian Jew is to be allowed to settle. No reason is given for this interdict; but the Turk, who has suffered many things from his "oppressed nationalities," may perhaps not unnaturally think that on the whole he had better not give the Jewish nationality a centre around which it would be sure to grow.

A NUMBER of South German farmers have petitioned the Imperial Parliament for an increase of freight dues and protective customs in order to counteract the evils of Italian competition created by the opening of the St. Gothard line. "We will not broach the question," write the petitioners, "whether it was well to break through with art the natural barriers set up by Divine Omnipotence for the protection of German agriculture." It is, however, of no use, the farmers think, to cry over spilt milk, and they content themselves by asking the Imperial Government to reduce the export and raise the import freight dues on the new German-Italian line as much as possible, and also to add to the rigour of the Chancellor's protectionist tariff.

"DRACONTOPHOBIA" seems a long word, but it is that of the experimental science which a large body of scientific persons inaugurated the other day at Berlin. At the invitation of the learned manager of the snake-house of the Zoological Gardens, they assembled to test serpents' eggs as a new material for human food. An Indian python, the prolific parent of thirty eggs, supplied the raw material for the feast. The egg, when broken, was grey, viscid, and without yolk. Boiling proved a failure; the skin was too tough; but "scrambled eggs" were a decided success. No one ventured to taste the dish until the manager plunging his iron spoon into the pan, cried, "Why, it is delicious!—delicate!" Others followed: but as nothing to drink was permitted, each carried off his portion in paper, to be tried at home. A German savant, who collected the opinions of the experimenters, states that the verdict was that the dish tasted like mashed potatoes mixed with rice!

A TELEGRAM from Vienna, dated May 31, says:—From a good Persian source I learn that Abdul Rahman Khan has complained at Teheran, through the Governor of Herat, that Ahmed Ayub Khan, now at Teheran, is engaged there in making preparations for the invasion of Herat. He therefore requests the Shah to expel Amed Ayub from Persia, or to compel him to desist from his present course of conduct as being a breach of neutrality.

HYDERABAD DECCAN.

(FROM A CORRESPONDENT.)

SECUNDERABAD, JUNE 17.

WE are having rather unusual weather for this time of year; at the beginning of the month we had two days of continuous showery weather, but ever since there has been nothing but a strong south-westerly breeze, day and night, which drives away gathering clouds, so that we hardly know whether our monsoon has begun or not.

H. E. Nawab Busheer-ud-Dowlah returned to Hyderabad last evening, after an absence of nearly two months in the Southern Presidency, mostly at Ootacamund, where he has been exchanging cordial hospitalities with Mr. Grant Duff, General Roberts, and others of the *élite* of Madras. While at Madras "Marine Villa," appertaining to Government House, was placed at his disposal; and the Nawab visited all the places of note at the capital—the Club, the Penitentiary, the Gun-carriage Factory, the Pottery-works, &c., besides visiting some ancient Mahomedan shrines. Before leaving Madras the Nawab was magnificently entertained by Her Highness the Nawab Begum of Arcot. At Bangalore Busheer-ud-Dowlah enjoyed some pleasant days with His Highness the Maharajah of Mysore, whose guest he was. He was also the guest of Sir Frederick Roberts at the Wellington Races, where he presented a cup and made a handsome donation to the race fund. On his homeward journey from Bangalore, the Nawab paid Bombay a short visit, and thence proceeded to Goolburga, where he was received with much court ceremony and military parade. While at Goolburga the Nawab, in his official capacity of Minister of Justice, inspected the Jail and Law Court, and recorded his approval of the excellent working state in which he found both. At the Hyderabad station Sir Salar Jung, the Peishkar, the Financial and Judicial departments, most of the Hyderabad nobility, and an immense concourse of the city people received Nawab Busheer-ud-Dowlah, who is heartily pleased with his trip to Madras.

The Rohillas, I am sorry to say, are doing considerable mischief; there are at present several gangs of these desperadoes roaming about the districts playing havoc among the ryots. The Resident's attention, I understand, has been drawn to the subject, and doubtless the Hyderabad Government will make every effort to suppress the evil. The Rohillas are a turbulent class who appear to be reckless of consequences to themselves of their lawless deeds; they are the willing tools of anyone who will pay them well to commit robbery, dacoity, or even murder. In the "strange occurrence in Hyderabad," reported in the *Bombay Gazette* of Thursday last, the Rohillas of Hissamoodeen Padshah were the first to begin the fray. The Government should certainly take early steps to prevent anyone who owes another a grudge being able to secure at any time the services of this turbulent class, within the city or out of it.

The sanction of Government to the formation of the "Hyderabad Volunteers" having arrived, the Volunteers are busy getting up their uniform, which Messrs. Badham, Pile & Co. have contracted to supply. The undress is simply a white drill suit with silver-plated buttons on the coat; the full dress is to be a dark grey, with red facings

THE PAMPERED WASTEFUL DEPARTMENT.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—Under this heading I desire to draw the attention of Government and of the public to the Public Works Department. Is it the case that the department is a vehicle of waste administered by over-paid officials? The general impression seems to be that it is so; and the treatment of the officers in it by Government lends more than countenance to the view. Except in one or two State papers, notably General Sir A. Clarke's Minute, and (I think) a resolution by Lord Mayo, the department is uniformly rated and abused by all up to the Duke of Argyle (who ought to have known better, and who had the grace to tender an apology for his groundless statements against Civil Engineers, and to withdraw them), and even by Colonel Chesney, who himself, I believe, set some of the examination papers, which all but the merest fraction of the Civil Engineers in the department had to pass, so that he was in a degree responsible for some of the admissions into it, and to tell the truth, they do him great credit. As for Royal Engineers, the public generally seem agreed as to their costliness and incapacity.

What now are the facts of the case? Leaving out of consideration certain works found faulty and with more or less reason* condemned in Lord Mayo's time, let us take at haphazard a few achievements of the department: *e.g.*, the administrative arrangements during the Bombay famine under General Kennedy, the works then carried out by P. W. D. agency, the tanks or lakes in Sholapur, Satara, and Kaladgi, perhaps the most extensive engineering work in the world would be proud of.

And what is the remuneration of the officers who are entrusted annually with enormous sums for the construction of these works? It has lately pointed out that military and civil engineers are paid worse than police and customs officers, and that their travelling allowances are inadequate. "Sick at Heart," in your issue of the 12th, showed how native members of the department, whose education is not a tithe as costly and whose expenses are as nothing, "are put in the same position as regards pay and promotion" (and he might have said pensions) "as Europeans;" and "R. E." knows to be an able officer on the Bengal side, high in the service) adds his testimony, in his pamphlet on the "Duties, Difficulties, and Operations of the Public Works Department," in these words:—"But the worst is the fact that the Public Works Department is, in every important matter, the least favoured service in the State, and holds a very invidious position in its general polity. Its emoluments and prospects are worse than those of most other departments; it receives none of the honours and distinctions which fall to their lot; and the services which it has to render to them, or the duties it has to fulfil on their account, tend to place its officers on a more or less subordinate footing. As to emoluments, investigations made last year showed that a Royal Engineer in the P. W. D. draws, during his career in it, almost precisely the same amount as a Staff officer of Native Infantry—rather more in the lower, considerably less in the upper ranks—while it need hardly be remarked that the military service in addition enjoys all the Army Staff appointments, and is also eligible for posts in the Political Department and in the civil administration of the country. The Royal Engineer, therefore, in the P. W. D., does not fare as well as a staff officer of Native Infantry; while the Civil Engineer is worse off by the monthly amount of Rs. 129, which is the average difference between the pay of the Royal and the Civil Engineer. Obviously, then, there is no room for comparision, in respect of emoluments, between even the Army and the P. W. D. are in. In the P. W. D., then, the work is hard, the duty frequently unpleasant. Most of its officers have entered it by competition, some of them by competition of a high order, and none of them have placed themselves in the background in every point to which importance attaches in a service—in honours, in place, in prospects, in emoluments."

In this pamphlet "R. E." shows clearly that the department is not only economical but efficient; many will scoff at the absurdity of the contention, but his figures are incontestable.

For a remedy to the unsatisfactory state of affairs in the department, the pamphlet therein should appeal to Government or to the Secretary of State. Let those who feel the apathy of despair throw it off. The present is a peculiarly fit time for action.

FIAT JUSTITIA.

* This qualification is made in special connection with the Sagar Barracks, which, condemned in 1860, are standing to this day, intact, having braved the monsoons of 12 years without repair or mention of any kind. *R. E.'s pamphlet on P. W. D. Operations*, &c.

THE SOUTH-WEST MONSOON.

TELEGRAPHIC WEATHER REPORTS.

SIMLA, June 17:—The barometer has risen over India with local exceptions, chiefly in Madras. The rise has been greatest in Lower Bengal, but is less than one tenth of an inch. The pressure is still generally below the average, and is very low at Benares and in the Punjab. The distribution of pressure is similar to yesterday. The winds also are generally similar. The temperature has fallen in the Punjab and the North-West, but is rising in many places elsewhere. It is now ten or twelve degrees below the average in North-West India. The skies are clear in the Punjab and Sind, cloudy in the North-West Provinces and Bengal. Rain is general in Bengal, the Central Provinces, and the North-West. Little or none has fallen in the Punjab and Madras. At Sutna there have been twelve inches; at Akyab five inches; at Jubbulpore and Mercara four inches; at Darjeeling two inches; at Mozufferpore and Lucknow one inch; at Fyzabad, Sibsagar, Silchar, Purneah, Bombay, Cochin, Mangalore, and Diamond Island half an inch. Yesterday Cawnpore and Gauhati had each one inch.

JUNE 18:—There has been a general rise of the barometer, exceeding one-tenth of an inch in Bengal and Central India, and a light fall in Sind. The minimum at Benares is disappearing. The winds are again west in the Central Provinces; generally south in Bengal. The temperature is low in Sind and Madras; generally high elsewhere. The rainfall is decidedly less, none in the Punjab, Bombay, or Madras; but general rain in Burmah, Bengal, and the North-West. Rainfall to-day:—Mercara two inches; Akyab, Diamond Island, Cuttack, and Jubbulpore over one inch; Bareilly, Chittagong, Muzufferpore, and Rangoon half to one inch. On previous days there were three inches at Rae Bareili, Naini Tal, Cawnpore, and Hamirpur; and over one inch at Tounghoo.

JUNE 19:—The barometer is still rising, especially in Bengal and the North-West Provinces. The pressure is now over the Lune average, except at Mooltan. The lowest pressure to-day is at Mooltan. The secondary minimum at Allahabad has little effect on the winds, which now blow from the normal monsoon direction, except in Assam, where they are more westerly. The temperature is very high in the Punjab, but is falling in the North-West Provinces. The skies are clear in the Punjab and some Madras stations; elsewhere cloudy. General rain has fallen in Bengal, Burmah, Assam, and the North-West Provinces except in the western districts. No rain is reported from the Punjab plains, Bombay, Rajputana, and the north of Madras; partial rains from south of Madras, the Central Provinces, and Central India. Over one inch fell at Mussoorie, Roorkee, Darjeeling, Burdwan, and Sutna; half an inch at Simla, Lucknow, Dhubri, Jubbulpore, and Thayetmyo. Yesterday there were five inches at Darjeeling; two inches at Silchar; over one at Naini Tal, Cawnpore, Gorakpore, and Tonghoo; half an inch at Lucknow, Jounpur, and Gauhati.

SHOLAPUR.—There have been very heavy showers of rain experienced at Sholapur, resulting in the death of 12 men and the fall of 100 houses. Great damage, too, has been done to the railway (G. I. P. R.) property, two diversions from the line having been washed away by inundations from the Bhima, while the Government Railway ferry-boat, bullocks, carts, &c., have been swept down by the force of the floods. No human lives, fortunately, have been reported as lost.—*Deccan Herald.*

THE PAHLAVI LANGUAGE.*

THE name of our citizen Dasturji Saheb Jamaspji Minocheherji claims a high rank on the list of Pahlavi scholars. His knowledge of the old Bactrian, as well as of the Pahlavi language, is indeed quite remarkable. Gifted as he is with sound philological judgment and learning, he is received by all his religious adherents, and European scholars too, to be a leading authority in all matters apertaining to Pahlavi. He has an intuitive perception in all that regards linguistic subjects, and this, seconded by his powerful memory, has enabled him to present the most difficult linguistic problems in such a clear light and an agreeable form that every student of ancient languages—whether a linguist or not—may use his work with great profit. Pahlavi scholars, to whom these facts are well known, will therefore be sure to welcome the appearance of the third volume of this most valuable dictionary. Complete and yet concise, clear in arrangement, and scholarlike in each detail, this volume should serve as a model for the two volumes that are still to appear. Having carefully gone over the first hundred pages, I can honestly say that the manner in which the author has discharged the duties of linguist and editor has afforded me the greatest pleasure. The meanings of the words are given very correctly, and are full of the most interesting matter showing an exact knowledge of the Avesta, and display an amount of Pahlavi learning that would do credit to any Pahlavi scholar. Therefore I can have no hesitation in saying that the Pahlavi dictionary of Jamaspji Dastur Minocheherji is the most valuable work that has been published in India for a long time past.

DR. J. COLLIS BROWNE'S CHLORODYNE

THE ORIGINAL and ONLY GENUINE.

ADVICE TO INVALIDS.—If you wish to obtain quiet, refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media, and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by Dr. J. Collis Browne (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.

CHLORODYNE is the only palliative in Neuralgia Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical hemists, Medical Hall, Simla, January 5, 1880, to J.T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London. Dear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Cholera Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is A DELIBERATE BREACH OF FAITH ON THE PART OF THE CHEMIST TO PRESCRIBER AND PATIENT ALIKE. We are, Sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists.

CAUTION.—Vice-Chancellor Sir W. Page Wood stated that Dr. J. Collis Browne was, undoubtedly, the Inventor of Chlorodyne; that the story of the defendant Freeman was deliberately untrue, which, he regretted to say, had been sworn to.—See "The Times," July 13, 1864.

Sold in bottles at 1s. 1½d., 2s. 9d., 4s. 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.

CAUTION.—Beware of Piracy and Imitations.

Sole Manufacturer—J. T. DAVENPORT, 33, Great Russel, Street, Bloomsbury, London.

KEATING'S INSECT POWDER.

BUGS, FLEAS, MOTHS, BEETLES, and all other Insects are Destroyed by KEATING'S INSECT POWDER, which is quite harmless to Domestic Animals. In exterminating Beetles the success of this Powder is extraordinary, and no one need be troubled by those pests. It is perfectly clean in application. Ask for, and take no other than "KEATING'S POWDER," as imitations are noxious, and fail in giving satisfaction. Sold by all Chemists in small bottles.

SARSAPARILLA.

Wilkinson's Essence or Fluid Extract of
RED JAMAICA SARSAPARILLA
Is the ONLY PREPARATION RECOGNISED by the FACULTY as a WONDERFUL PURIFIER of the HUMAN BLOOD.

It is not too much to say that those suffering from the effects of TROPICAL CLIMATES, such as TORPID LIVER, DEBILITY, ATTENUATION of BODY, ERUPTIONS, LASSITUDE, &c., will, by taking this extraordinary ESSENCE of RED JAMAICA SARSAPARILLA, soon find relief and ultimately a cure. It is asserted by those who take a little DAILY the system becomes less liable to attacks of illness.

"We cannot speak too highly of it."—*Lancet.*
"We recommend your *Red Jamaica Sarsaparilla*."—*Medical Review.*
"The only preparation for removing what may be called the Sequelæ of a mercurial course."—*Sir R. Martin.*
The late Lord Clyde, writing for a further supply of *Wilkinson's Sarsaparilla* says, "I am never without it, for when feeling depressed or out of sorts from anxiety or fatigue, a dose or two animates me."
"Your *Essence of Red Jamaica Sarsaparilla* CURED me of a Torpid Liver after all other remedies failed."—*Earl of Aldborough.*

PREPARED ONLY BY
THOMAS WILKINSON, 270, Regent St., London.
Sold in small, medium and large ootties.

CAUTION.—Many spurious, worthless, and injurious preparations are offered to the Public; see that both Bottle and Label have the Name and Address, also Trade Mark (W. in a diamond), at the bottom of the bottle
WILKINSON'S
BRONCHIO-THORACIC LOZENGES.

AGENTS:—TREACHER & Co.; KEMP & Co.; ROGERS & Co.; BOLTON & Co., Bombay and all respectable Firms in India.

SULPHOLINE LOTION.—An External Means of CURING SKIN DISEASES. There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferers for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcule which cause these unsightly, irritable, painful affections, and always produces a clear, healthy, natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d. Made by J. PEPPER and Co., London. Sold by TREACHER and Co.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections and in wasting disease, scrofulous tendencies, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by Chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition. Sold by TREACHER & Co.

TARAXACUM and PODOPHYLLIN—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, headache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine. Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s., 9d., and 4s. 6d. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape and Colonies generally.

LOCKYER'S SULPHUR HAIR-RESTORER will darken grey hair, and in a few days completely bring back the natural colour. The effect is superior to that produced by an instantaneous dye, and does not injure the skin.

LOCKYER'S SULPHUR HAIR-RESTORER is the best for restoring grey hair to its former colour. It produces a perfectly natural shade, and is absolutely harmless. Recommended for destroying scurf and encouraging growth of new hair.

LOCKYER'S SULPHUR HAIR-RESTORER.—No other hair dressing is requisite. Large Bottles, 1s. 6d. Sold by Chemists, Hair-Dressers, and Perfumers in London, and throughout the world.
Lockyer's is equal to any of the high-priced preparations. Sold by TREACHER & Co.

LIVER COMPLAINTS.

DR. KING'S DANDELION and QUININE LIVER PILLS (without Mercury.)
THE BEST REMEDY FOR BILIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDER'S, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.
sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London.
Specially valuable Pills for residents abroad and traveller.

ZOEDONE! ZOEDONE!
A COOL, SPARKLING, DELICIOUS, NON-ALCOHOLIC BEVERAGE FOR DAILY USE.

ZOEDONE—Possesses both Tonic and Bracing qualities.
ZOEDONE—Invaluable to those recovering from Fever
ZOEDONE—Or Weakened by Sea-sickness,
ZOEDONE—Or those suffering from the enervating effects peculiar to the Indian climate.
ZOEDONE—NORMAN KERR, M.D., F.L.S., under date August 8, 1881, writes:—
"My good opinion of ZOEDONE as a social drink has been amply confirmed by further observation."
ZOEDONE—WILLIAM FOSTER, M.A. (Cantab), F.C.S., &c., Professor of Chemistry at the Middlesex Hospital, Sept. 1, 1881:—
"Its properties are those of an agreeable effervescent tonic."
ZOEDONE—SYED MAHOMED NABI ULLAH, of Allahabad, N.W.P., writes on 1st December, 1881, as follows:—
"Accept my sincere thanks for your idea of introducing ZOEDONE in India. I fear I cannot praise it enough. You know that a vast population of Her Majesty's subjects in India are Mahomedans, whose religion prohibits the use of wine or any other intoxicating liquor. Under such circumstances ZOEDONE is a boon and blessing to them. I think it is a health restoring, strengthening and nourishing beverage. From my own experience and from what I have ascertained from Medical men, I can certify that it is strictly non-alcoholic, and the very drink that the Indians generally and the Mussulmans particularly are in need of."
